VINEYARD LOCATION	Altamira – Uco Valley – Mendoza – Argentina - 1.078m/asl
VINEYARD AGE	28 years
CONDUCTION	High vine
AGING	30% was aged for 12 months in French oak barrels
ALCOHOL	14.5% by vol.

ENOLOGY

The grapes are harvested by hand, with scissors in plastic boxes of 10 kilos.

Once in the winery, on the selection table boxes are flushed and discarded those clusters and grains that are not in top condition for processing. The whole grain, not crushed, enters to stainless steel tanks.

The utilization of techniques of "bleeding" added to a cold pre-fermentative maceration at a temperature of around 9°C for 3 days allowed us to achieve a very good aromatic and color extraction without raising atypically tannins. Thereafter for a period of between 8 to 10 days, are daily performed different types of delestages and pump-ups, regulating the fermentation by controlling the temperature. Once the alcoholic fermentation was completed, the skins are macerated in wine to the desired color combination, tannins and aromas. A malolactic fermentation takes place in this phase, maintaining the temperature above 20°C. Finally we proceed to the wine aging in our underground cave, in French oak barrels for 12 months.

WINEMAKING NOTES

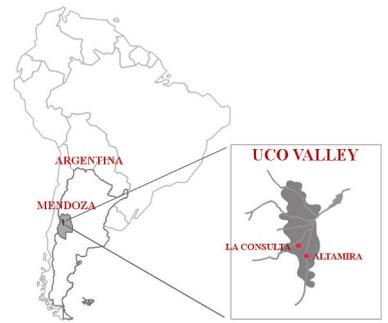

This Cabernet Sauvignon is distinguished by its beautiful violet tones and its subtle notes of black pepper. Fresh and fruity, it has a great body and good acidity. Its passage through oak increases its complexity and concentration and gives it a delicate roasting note.

PAIRING

This wine is ideal for accompanying stews and red meats cooked in different ways. As for cheeses, it enhances the flavor of Cheddar, Gouda and blue cheese.

TO SERVE

Suggested drinking temperature: 16°C to 18°C.
